

Security

PrintWow by Cheque Print takes security very seriously. We have a number of security features for data and ordering.

- You will notice that our entire site is under a SSL security certificate. The certificates, ensures that not only are we a legitimate company, but that all details around security are met.
- We do not transmit or upload customer data to our web servers.
- Customers that place orders online are safe, as no complete financial details are kept online. We only store the full details on our in-house servers.
- Our offices are also secure with a number of security layers to protect customer information and data.
- With over 19 years of cheque printing and millions of cheques printed, you are dealing with a secure, safe and reputable company.
